New York, Oct. 20 .- A special disresterder decided a case that is of inter- patch to The Herald from Washington says the president had a conference Fripresents to the objects of their tempo-day with Secretary Tracy, Attorney tary affections and then desire to transthe state department, regarding the report of Captain Schley on his investiga-tion into the assault committed upon American seamen in Valparaiso recently. The Herald's correspondent says be was informed on the highest authority that the government would take a strong and aggressive position. President Harrison was said to be the most outspoken advocate of this course. It was in a tone of exceeding bitterness that he referred to Chill's continued hostility to us. He said the time had come when we must teach the Chilian people that our pa-tience in dealing with them is exhausted. He instanced their treatment of Minis-

ther Egan.

The conference lasted for several hours. At the close of the conference a cable dispatch was sent to Minister Egan at Santiago, instructing him to communicate to the Chilian provincial government the indignation of the government at the assault upon the saliers of the Baltimore. It further instructed him to demand—first, an indemnity in money to be paid to the families of the dealers and to the families of such of the wounded as may die; second, the arrest and punishment of the participants in the assault, and third, a suitable apology to the United States. The tone of the dispatch indicates that the administration will brook no delay in securing a settlement of the matter. Chili must do what she is relead to do, and do it speedily. The situation is respectively to the Catterial of the matter. and do it speedily. The stimulon is regarded as one of extreme gravity.
